Attachments: ATT00001.txt

Hi Michelle,

I called constant contact and they fixed things on their end but from what I can tell it looks like you still may not be receiving the emails? If you didn't receive the one we sent out this past Tuesday (SRRTTF action item due dates follow up), then it looks like it is something on your end. Let me know if you've had a chance to talk to your IT dept. Thanks!

Lara Floyd

Thank you for the notification, Lara. I am checking with my IT department to see how to get these emails to come through.

Michelle Mullin | PCB Coordinator

Hi,

You are on our list to receive emails about the Spokane River Regional Toxics Task Force but our emails to you are bouncing through the Constant Contact system that is being used. If you would like to continue to receive emails you may need to change your email settings to allow the SRRTTF emails to come through. If you have questions about how to do this we suggest checking with your IT department. If you are with Ecology it may help to go to your spam filter

("IronPort") and accept the SRRTTF email from Constant Contact. Or please let us know if you wish to be removed from this list. Thanks and here is the upcoming meeting information for this Wednesday.
